Project Information

Project Eligibility

- Which of the following registry criteria does the emission reduction meet?
☐ The emission reduction was not required by law
☐ The emission reduction went beyond the requirements of the law
- Has the emission reduction, avoided emission or carbon sequestration occurred before required by law or resulted in emissions lower than those allowed by law? (For example, reductions used for netting, offset credits, minor source status determinations are required by law and may not be registered as voluntary reductions.)
☐ Yes ☐ No

Include full citation of all protocols used to measure, calculate, or estimate the emissions, emission reductions, emissions avoided, or carbon sequestered.

Type of Baseline (*check one*)

☐ Standard Baseline ☐ Alternative Baseline ☐ Carbon Sequestration Baseline ☐ Multiple Baselines

Baseline Calculation (*Attach additional sheets as necessary.*)

Provide the emission reduction calculations. (*Attach additional sheets as necessary.*)

Were the emission reductions identified above aggregated? ☐ Yes ☐ No

If yes, please identify the aggregation method employed.

Are there other parties who may also be reporting the emissions reductions for this project? ☐ Yes ☐ No

If yes, please identify others who may share the emission reductions reported for this project and the method employed to determine emission reductions for each party.

Is this activity included in any other emission trading or registry programs? ☐ Yes ☐ No

If yes, please list the name and contact information of the program.

Emission Reduction Summary

| | | Total Energy or Fuel Saved or Avoided (<i>if applicable</i>) | | | Emission Reduction, Avoidance or Sequestration | |
